Josh Billings' Philosophy.

One of the hardest men in the world to beat iz a fool who knows hiz weakness and akts ackordin.

A humbug iz like a bladder; don't amount to much untill it iz blowed up, and then, like a bladder, one prik ov a pin lets all the importanse out ov it.

Stik and hang, old fellow, stik and hang. Thare iz nothing plezes the world more than to here that yu hav giv up your holt.

I take notiss that thoze people who are ov the least consequence in this world are always fraidest to die.

Genyus hits the bull's eye the fust time, if it hits it at all. Talent hits it bi long praktiss.

I had rather be an idieot than a phool. Providence iz ackountable for the one, and i am ackountable for the other.

The best way to beat sum is to agree with them.

The tru way to dress is not to attrakt attenshun, but to escape notiss.

The grate mistake we old folks make iz, we expekt to learn younger ones by precept what we never would learn ourselfs only bi experiense.

Menny a man owes the success he haz achieved in this life, not only in having lived korrectly, but in having died in good seazon.

Whare thare iz one man who iz honest from principal, there are two that are honest from vanity, and three from fear.

I don't suppose thare iz an absolutely necessary man now living on the face ov the earth, but you can hardly find one but what thinks he iz the man.

The grate art in ridikule iz so to apply it that enny one feels that it don't mean them.

I fully beleave that the fear of punishment haz made more people seemingly virtuous than the hope of reward.

The devil iz a hero, and so was Judas Iskarriott, but i don't consider either ov them worthy ov imitashun.

Our vices are like our pashuns—about the best we kan do with them iz to make them behave themselfs before folks.

I rather like the phools; they act more natral than ennybody else.

Laffing iz sed to be a weakness, but the wizest men i ever knu were alwuss on the lookout for a good laff.

A good servant aint fit for enything else.

The human harte has recesses in it as unknown to its possessor as to enny one else.

The only man whom noboddy kan beat iz he who knows just what things are worth.

All grate truths are the most simple, just az simple az twice one are two.

If gravity iz an evidence ov wisdum, it don't kost mutch to appear wize.

A haff edikated man iz like a haff broke horse—yu kan't tell what he iz going to do next; nor he kan't tell neither.

If yu want ennything ov the world, and expect to git bekauze yu deserve it, don't ask for it, but demand it.

The man whom yu kan flatter iz all wuss in market, and yu kan close him out enny time yu get the price right.

Sum people say the best way iz to take the bull bi the horns, but i say take him bi the tale, then yu kan let go when yu want to.

The real tru friend iz the one who tells yu ov yure failings, but hides them from everyboddy else.

When politeness iz an art, it iz the most subtle ov all arts.

To get thru this world eazy, a person must be prepared to give on all ockashuns full twice az mutch az they git.

I prefer a lunatik to a fanatik, the lunatik iz mad on all sujikts, and kan be confined, the fanatik is mad on one, and runs at large.

I never hav saw a phool yet, but what waz in a grate hurry to prove it, and always suckceeded.

The most dangerous men are thoze who hav az mucth evil az good in them; this iz the hardest kind ov an average to preserve.

Thare iz a grate deal ov philosophy that iz nothing more than disappointed ambishum. Esop's fox preached humility and pashunce when he found out that the grapes waz just about 2 feet higher than he could jump.

We esteem thoze who are superior to us, endure thoze who are equal, and luv theze who are inferior.

I prefer a ded man to a thoroly lazy one; yu kan bury the ded one, but i believe thare iz a law against burying the other phellow.

Don't hunt for happniess, but hunt for as little mizery az possible.

If yu wish to lose a man's luv, and even friendship, make him depend upon yu.

The question, is there a Hell? is provoking the liveliest discussion in the Eastern States; the clergy wrestle with it, the newspapers are full of it, and threatens to complicate politics, by drawing party lines anew. This is a touching and interesting spectacle—our Eastern bretheren standing up on their blue noses in the snow, warmly debating the existence of such a place where it is Summer all the year round, and there is no coal bills. It is significant, as tending to show the effect of climate upon theology, that on this coast, where it is neither very warm in Summer nor very cold in winter nobody seems to care if there is a Hell or not. We know there is an Arizona, but hope to escape it by death-bed repentance, if we are spared.—*Argonaut.*

RENO, WASHOE COUNTY, NEVADA

WEDNESDAY............JANUARY 2, 1878.

Annexation.

There is considerable talk in some of our Nevada sanctums about the annexation of Mono and Alpine counties to Nevada. There is, however, very little prospect of the scheme reaching perfection. The Nevada press discuss the matter, because it is such a self evident proposition, and the interior journals of California hasten to condemn the project, even before it assumes form. This haste is also due to the belief that, once thoroughly discussed, the question would be decided in our favor. We do not regard the matter as of present importance, however, because of the lack of sympathy in the counties which are under dispute. Nothing is heard upon this question in Mono which can be construed favorably, California will not give us anything she can keep, and hence there is nothing in the movement. There is, however, no question as to the natural boundary of the two States, and, in view of the possibility of more "Von Schmidt surveys" in the future, we shall need one or two more counties to make us whole. We'll not get them this month, anyway.

The editor of the *Esmeralda Herald* is very much annoyed at our use of head-lines. The *Herald* man is a literary critic of a high old order.

As Nevada abounds in Masons, we may mention for their benefit that, at a recent meeting of the Grand Lodge of English Freemasons, when the Prince of Wales was renominated Grand Master for the ensuing year, the Pro-Grand Master, the Earl of Carnarvon, called attention to the action of the Grand Orient of France, who had struck from their preliminary stenation words expressing belief in the extence of God and in the immortality of the soul. He said that in ordinary cases the Grand Lodge would have no right to interfere, but this was a matter which called for notice, as the French Grand Orient could not effect these changes without affecting the whole Masonic body throughout the world. The limits of Freemasonry being very wide, included Roman Catholic, Protestants, Mussulmans, Calvinists, Lutherans and Jews, who were all bound by the principles of religion, and there could be no such principle without belief in God. A committee was appointed to inquire into and report upon the subject.—*Enterprise.*

THE RESERVATION MURDERERS.—The trial, of which we had something to say last year, has just been concluded in Pioche. The accused were at first taken to Carson, and afterward to the Great East.

The Eureka *Sentinel* of December 30 says the trial of Sloan, McManus, Dean and Newman, known as the Maopa reservation murderers, was concluded at Pioche on Saturday night, resulting in the acquittal of the prisoners. Two men, Holland and Carter, were murdered at the reservation last Summer. There is hardly a doubt that the right parties were arrested, but the evidence was insufficient to convict them. They were first put on trial for the murder of Holland, which resulted as above. The Carter indictment is still hanging over them, but it is believed that they will be acquitted on this also, as no new evidence is now obtainable.

CONKLING LOSES HIS DEMOCRATIC SUPPORT IN THE SENATE.—The Washington *Post* of the December 29 says: "We feel anth rized to say that Conkling will not again be sustained by any of the Democrats in the Senate on any issue he may make with President Hayes upon questions of executive patronage. In fact, we are personally informed of the determination of those Democrats who sustained him recently to hereafter vote to confirm the President's nominations unless specific causes affecting the interests of the public service are shown why they should not be confirmed. This is forced upon the Democrats by the malevolent designs which Republican politicians have developed toward the South." This journal says this course is to be taken in order to rebuke Blaine, Conkling, Edmunds and others who would revive sectional animosity, and to encourage the President and others who array themselves on the side of Southern right to full citizenship.

The Political Situation at Washington.

Washington, December 30.—The *Herald* and *Gazette*, the two Democratic Sunday papers of Washington, both assert to-day that if the President will renew the nominations of Roosevelt and Prince for Collector and Naval Officer of New York they will be confirmed. The *Herald* says: "A number of Democratic Senators who voted for the rejection of these officers' nomination will either abstain from voting or vote in favor of the confirmation, as will also several Democratic Senators who neglected to vote. They have found that neither party nor public opinion will sustain them in obstructing reform in the Custom House while strenthening the Conkling-Republican movement against Hayes, and consequently that Senator's chances of re-election." The *Daily Post*, the regular accredited Democratic organ in this city, declares with great emphasis, and apparently by authority that Conkling will not again be sustained by any of the Democrats in the Senate on any issue with the President upon questions of Executive patronage. The *Post* thinks it is not logical for Democrats to aid or comfort men who base their political hopes upon keeping alive the hatred of Northern people toward those of the South, and classes Conkling with Blaine, Butler, Chandler and others, as being actuated by this desire. Forney's *Sunday Chronicle* professes to have positive information that the President will send in the new Custom House nominations just as soon as Congress reassembles, and that they will be confirmed by the votes of every Democratic Senator except Eaton, together with those of sundry Republicans, among whom it specifies Hoar, Dawes, Burnside and Matthews. It says the President will then command the situation, in the Senate at least, and his Cabinet will continue to act harmoniously with him, whatever the inventions of sensational newsmongers may be to the contrary. The President has repeatedly laughed at all these silly rumors, and is surprised that newspapers claiming ordinary intelligence and veracity should still presist in imposing them upon the public. If the people at large attached no more importance to them than he does, such stories about Cabinet changes and changes of policy will soon cease to attract any notice. There is good reason to believe that the foregoing statements are made upon authority, and correctly outlines the President's feeling and purposes at the present time. The remark attributed to Post-master-General Key yesterday, that he did not know whether he would be in office long after Congress meets, was made in his characteristics, half-puzzeled manner, and doubtless was not intended for repetition or for serious acceptance. Evarts and Schurz discredit the reports of their prospective retirement very distinctly and unmistakeably.

The consolidation of the Pacific division of the Atlantic and Pacific Telegraph Company with the Western Union went into effect January 1st. Hereafter stock reports will be charged for by the telegraph company at $20 per month, and gold and currency quotations to banks at $10 per month. Of the change the *Record-Union* speaks as follows: "The stock quotations to brokers at Virginia City constitute the very cream of telegraphic business on this coast. Heretofore it has aggregated about $15,000 per month to the two lines. Much discontent on the part of these brokers has been occasioned by a notification of increase of rates to them. The competition rates had given them a cheap service under the old regime, and there is some talk of building a line from Virginia to San Francisco to carry that business. The arrangement of consolidation as now understood, is as follows: The Western Union leases the lines of the Atlantic and Pacific Company at an annual rental of $100,000. This sum is guaranteed for fifteen years. In addition, all railroad business, as now carried by the Atlantic and Pacific lines, is to be carried free. The Western Union Company keeps the lines and instruments leased of the Atlantic and Pacific Company in repair. The Atlantic and Pacific Company retire from the transaction of all commercial business."

The President recently directed his Secretary to write to Mrs. Chisolm, the widow of Judge Chisolm, who was murdered in Mississippi, offering her a clerkship in the Treasury Department. At the same time he issued an imperative order that she should be placed on the rolls if she accepted the offer. She has accepted, and was to have been in Washington last Saturday week to take the place offered her.

The Eureka *Republican* comes out squarely for the Hayes policy, and is very able in its treatment of the subject. One short year, Loomis, will prove your position.

The Precious Metal Crop.

We have received the following from J. J. Valentine, General Superintendent of Wells, Fargo & Co.:

DEAR SIR: The following is a copy of our annual statement of precious metals produced in the States and Territories west of the Missouri river, including British Columbia and the west coast of Mexico, during 1877, which shows an aggregate yield of $98,421,754, being an excess of $7,546,581 over 1867, the greatest previous yield in the history of the country. Arizona, Colorado, Idaho, Nevada, New Mexico, Oregon, Utah and Washington increase; British Columbia, California, Mexico and Montana decrease; but it is possible that the falling off in Montana is more apparent than real. In our statement for 1376, Dakota (Black Hills) was not mentioned. It appears herein credited with $1,500,000 gold, but the estimate is uncertain, as $950,000 is the total amount carried by all express companies and mail. The amount named as carried by other conveyances is conjecture. If the Comstock mines yield as much in 1878 as during the year just passed, the aggregate product of silver and gold will approximate one hundred millions of dollars.

The following table shows the amount of precious metals produced in the States and Territories west of the Missouri river, during the year 1877:

California..................	$18,174,715
Nevada..................	51,580,290
Oregon..................	1,191,697
Washington..................	92,226
Idaho..................	1'832,495
Montana..................	2,644,912
Utah..................	8,113,755
Colorado..................	7,913,549
New Mexico..................	379,010
Arizona..................	2,388,622
Dakota..................	1,500,000
Mexico..................	1,432,992
British Columbia..................	1,177,190
Total..................	$98,421,754

We have used the utmost care and diligence in ascertaining the character of bullion and ores reported, with the following result: the yield of the Comstock mines is 45 per cent. gold; of the whole bullion product of Nevada, 37 per cent. is gold; and of all so-called silver or base bullion, 28 per cent. is gold. The gross yield for 1877, shown above, segregated, is, in round numbers, as follows:

Lead, 5 per cent..........	$ 5,085,250
Silver, 48 per cent..........	47,206,957
Gold, 47 per cent..........	46,129,547
Total..........	$98,421,754

As lead is an important element in what is herein termed base bullion, we might add that of Missouri and Illinois, value approximately, $1,500,000; which, with the silver and gold of the Lake Superior country, Virginia and North and South Carolina, amount say $500,000, would swell the gross product to over $100,000,000 for the year. The lead product of Utah, Nevada and California exceeds that of the remainder of the United States and Territories combined; and in tonnage is greater this year than ever before, though not exceeding in value that of 1876, the average price having been lower than for many years past.

In our statement for 1876 the amounts credited to British Columbia and West Coast of Mexico, were inadvertently carried into the totals credited to the United States, in the estimates given on the right hand page of the statement.

We are uninformed as to the annual exports of silver to India, China and the Straits previous to 1851, but assume that they were less than since that date, which being so, the exports this year are the greatest known, viz: $105,000,000 to the 26th of December. The greatest amount in previous years was $83,650,000, in 1857. The amounts exported during the present year, were approximately as follows: From Southampton, $80,000,000; from San Francisco, $19,000,000; from Marseilles, $4,000,000; from Venice, $2,000,000.

We take pleasure in acknowledging the prompt responses of persons applied to for information, and to whose cordial co-operation we are indebted for much of the data necessary to our compilations. JNO. J. VALENTINE,
General Supt.

California, in size, is the second State, ranking next to Texas. It is twice as large as Great Britain, four times as large as New York, and has a population of 750,000.

The State of Nevada is about equal in size to the whole of New England, together with the State of New York. Population, 50,000.

The Chinese Question.

WASHINGTON, December 30.—Representative Davis has officially requested the Secretary of State to obtain for him from the British Government in London full information relative to the recent enactments by the Queensland Parliament, and other Australian colonies, discouraging immigration. He has also taken steps to obtain through the State Department copies of decrees or regulations tending to similar laws now in force in the French East Indian Colonies, especially Saigon. Davis has long been strongly impressed with the value of the precedents offered by the action of the Australian colonies in regard to the evils of Chinese immigration and labor, and last Summer procured from Sydney full copies of the recent debates in the Queensland Parliament, and correspondence with the home Government and other colonial Governments of Australia on this subject. These documents, however, fail to exhibit with sufficient fullness and certainty what laws are now actually in force in all the various colonies, although it is clear that a capitation tax upon Mongolians has been enforced for years in several of them, and Davis expects supplemental information to arrive shortly from Australia direct, in response to inquiries made by him independently of the application to London. The importance of being fully armed with the information of this sort, with a view to arguing the Chinese question before the Congressional Committees and of answering possible questions in debate is very obvious, and the new San Francisco member is earnestly devoting himself to the work of special preparation.

RENO EVENING GAZETTE.

LOCAL AFFAIRS.

New Year's Day.

Yesterday the weather was fine and New Year,s callers were numerous. Good cheer and a hearty welcome greeted the gentlemen whereever they went. The viands spread were first class, showing the fact that our Reno ladies not only know how to do the honors of the parlor, but also are adepts in the culinary department. It was a gala day for Reno. No fights occurred nor did we see a drunken man during the day. Those who kept open house were engaged during the afternoon and evening, showing every hospitality to their many callers, nor did the gentlemen confine themselves to visiting the residences of those who announced to receive gentlemen visitors. Old friends and even new ones gathered the spirit of the day, and made their New Year's calls general. It would not have been in keeping with our merited reputation as a people to have done otherwise. We have resided for a time in a number of towns and cities on this Coast, but have never found a more hospital or genial class of people than the citizens of Reno. The depression in the price of mining stocks, the closeness of the money market, in addition to other causes have made moderately hard times, but yesterday this fact was forgotten. We were citizens in common and friends in reality. The day with its festivities has passed, but its scenes of pleasure and exhibitions of appreciated friendship are not to be forgotten.

RIVERSIDE.—New Year's Eve some 80 couples or more gave audience to Terpsichore at Smith's Academy of Music. The occasion marked the social event of the season. Every preparation for a grand ball had been carefully made. The hall was beautifully decorated, the best of music was furnished by Prof. Varney and his assistants and a bountiful supper was spread by Mr. Chamberlain. But decorations, supper and music were only accompaniments. The Riverside ladies and gentlemen were out in force, but what its members most appreciated was the generous response to their invitation to the ladies and gentlemen of the Au Fait Club, of Carson, and other invited guests. Twenty-four couples came over from the Capital in a special car. The Club took them in charge, but of their reception they can best speak. We regret not having their names for publication. The ladies were richly and tastefully dressed, and the gentlemen appeared in dress party suit. The ball was pronounced by old residents the finest ever given in Reno.

SKATING.—The attraction of the day among young people is skating on the river just above the dam. The ice is nearly a foot thick, and very smooth. No accidents have occured to mar the pleasure of the skaters and all goes merry as on the Eastern skating ponds. Last night a bonfire was built on the river bank, and the boys had a jolly time up to a late hour. To-day the sport was renewed, quite a number of young ladies taking part in the pleasant exercise. Should the ice at any time break, of which there appears little or no danger, no one would be drowned, since the river at this point is not more than three feet deep. Nearly one hundre skaters have been on the ice at one time. It would be well if the weather holds favorable to flood the ice each night, and thus keep it as smooth as when first skated on.

HYMENIAL.—Again has Cupid consummated his designs and removed from single blessedness a young gentleman of our town and a fair damsel of Washoe Valley. We have noted for some time the suspicious movements of Mr. Fred Teasland. He was so quiet, looked troubled, built a commodious residence, read love stories and variously exhibited evidences of Cupid's work. It must be funny when you feel that way. But it's all over now. He has married a handsome young lady and we can't take any more comfort with him. We join the many friends of both parties in wishing them many happy years of wedded life.

Levi Leland the grand lecturer, will lecture at the Baptist Church this evening at half past seven o'clock. All are cordially invited. You will no doubt be richly paid for listening to this very noted lecturer.

Communicated—

Old Year's Eve Serenade at Crystal Peak and Verdi.

The lively boys of the newly organized Crystal Peak String Band showed due respects to her "champion camerad," August Grazer—who principally tooted the big horn—by serenading the old fellow last night in full force, to such an effect that he found it not only no error to appear right off in his garments, but even rushed out into two inches of snow without putting on any boots or slippers and dismounted from the elevated porch at Geo. Gertenbach's home—whose visitor he was—leading the musical boys to his old known brewery barefooted, but else in style. There the drinking of a keg of best beer, singing, dancing, etc., could hardly be carried on for all the laughing the boys had to experience. Old August, willing or not, had to take them to James Foxville's new saloon on Montgomery street, where the old year was acquitted, and, after welcomthe new one, it was proposed to serenade August's girl (the age of either of whom we cannot tell positively within 26 years). The band, consisting of one fiddler, one trumpeter, six tin-can men, four cow-bell ringers, some first-class whistlers, blowers, violoncellists, oboists and numerous dilettantes, succeeded in amusing the whole town mostly all night, deserving every honor, and also made their Verdi friends, S. A. Hamlin, Sam Goschen and Major F. Ingraham, come out too quick to listen. Old "Six Per Cent" dodged, he had to go. August stood it like a man, and so S. A., the first one finding, however, a bitter reception from his girl this morning. General feeling, good; some complaint about freezing their hairs. Tom C's. soup at two bits a plate before starting to Bodie. Gold plenty, but old tin in demand. Yours, truly,

REFLECTOR.

LOCOMOTIVE FIREMEN.—As we predicted, the Locomotive Firemen and their guests had a grand time in Wadsworth on New Year's Eve. About one hundred couples were present, and the dance was one worth remembering. The committee of arrangements and the Citizens of te town areh entitled to much praise. About ten couples were left on the platform at Reno through some mistake. The guests present were from Truckee, Wadsworth, Reno, and vicinities. The music and supper are described as something grand.

JUST THE THING.—The Knights of Pythias have quite determined to have a grand ball on the evening of the 31st. It will be the occasion of their third anniversary, and no amusement would be as acceptable to the majority, nor better suited as a change to the imposing exercises of this most excellent order, than the party which they now contemplate.

DANCE AT HUFFAKERS. — A very pleasant party was held last night at the Huffaker school house. A number of our dancers attended, and those who trip their No. 9's in that vicinity handsomely turned out. The room was crowded but they all had a jolly dance. As one who was present said, "You ought to have been there; we did have a splendid time."

American Social Life.

The foe of American social life is in the tendency to luxury and effeminacy among the well-to-do young women of our American cities and large towns. They do not realize how this dreadful mania for expensive pleasures, and a life of alternate idleness and amusement is destroying their health: abolishing true marriage; feeding the flame of gross sensuality and intemperance among young men, and saddening the hopes of the best parents in the land. Some of them never will know it in this world. But most of them have no real purpose to waste their lives in this wretched way. And it is a high crime in mothers, teachers, ministers and the public press to pander to this insanity. Thousands of good hearted young girls are sacrificed every year, when a wise and loving guidance could save them. But we feel that they should be told that unless they change this life they will pass away like the flowers of June, and a more hardy and resolute class occupy their places. American society will shed every class of triflers, male or female, that do not do its work, as the forest sheds its withered leaves. Let them awake from their dream of special indulgences; learn to live out of doors; to build up their health; to cultivate more simple tastes of dress, and more moderation in pleasure; study domestic economy; study social skill and tact; fit themselves for the noblest positions ever yet offered to their sex, and learn that woman is the soul of American life, not the tinsel on its garment.—*Universalist Quarterly.*

Henry Ward Beecher, Sunday before last, mentioned that he believed in the Trinity, but did not know anything about it, but he did not believe in hell. The idea that the Almighty was sweeping the people off the earth into hell by millions, like dead flies, was abhorrent to him, and transformed God into a horror greater than Satan; and as to the doctrine that the saints were so happy in heaven they did not mind the torments of the damned in hell, Mr. Beecher said: "By the blood of Christ, I denounce it; by the wounds in His side and His hands, I abhor it; by His groans and agony, I abhor and denounce it as the most hideous nightmare of theology."

In Trafalgar square London there was a great anti-Russian meeting lately, and this faction found itself confronted by an anti-Turkish mob soon. The question was argued passionately and the display of Russian and Turkish flags soon started a free fight. The Russians were defeated at a cost of sore heads and the Turkish and English flags were displayed over the victorious faction. It is asserted that the meeting had no political signification, The Anfilo-Turks were led by "a sooty-fared man, who howled like a Bashi Bazouk.

WATCHES!! JEWELRY!!

ROMAINE GOLD.

SO EXTENSIVELY WORN IN PARIS, was first discovered in 1870, by the celebrated French chemist, Mons. D. De Dafnge, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for Solid Gold. In 1875, when his secret became known, ten of the manufacturing jewelers established a stock company, with a capital of $10,000,000 for the purpose of manufacturing **Romaine Gold Jewelry and Watches.** With this immense capital and the aid of improved machinery, they are enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of solid gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.

We have secured the exclusive agency of the United States and Canada, for the sale of all goods manufactured from this metal, and in order to introduce them in the most speedy manner, have put up assorted sample lots as given below, which we will sell **at one-tenth the retail value until January 1st, 1878.** Read the list.

SUMMONS.

IN THE DISTRICT COURT OF THE SECond Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada sends to Hill & Oakes, Anselmo Torrelli, Luiga Dellapiga, Albert Mau, G. W. Mapes and B. F. Sheldon, greeting:

You are hereby required to appear in an action commenced against you as defendants, by A. D. Sisson, W. W. Wallace and Clark Crocker, copartners, under name of Sisson, Wallace & Co., as plaintiffs, in the District Court of the Second Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein, within ten days after the service on you of this Summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you, according to the prayer of said complaint. The said action is brought to recover $628.78, with interest, all in U. S. gold coin, from defendants, Hill & Oakes, alleged to be due for lumber and material furnished them by the Reno Lumber Company, and to foreclose and determine a mechanics lien, claimed against lots one and two in block P, on the corner of Virginia and Second streets, in the town of Reno, county of Washoe, State of Nevada, and the frame buildings thereon. Plaintiffs allege an assignment of said defendants' lien to plaintiffs, that defendants Torrelli, Dellapiga, Mau, Mapes and Sheldon, have, or claim to have, some interest in the property and that the materials furnished for the construction of the buildings aforesaid, and with the knowledge of the defendants last named, and their failure to give notice in writing by posting within three days after obtaining knowledge that they would not be responsible for such materials. Plaintiff prays judgment of foreclosure and for personal judgment against Hill & Oakes; all of which will more fully appear from the complaint, which is on file in the office of the Clerk of said court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiffs will apply to the court for the relief demanded.

SEAL

In testimony whereof, I, P. B. Comstock, have hereunto set my hand and affixed the seal of said court, this 25th day of July, A. D. 1877. P. B. COMSTOCK, Clerk.

DR. L. J. CZAPKAY'S

Private Medical Institute.

209, KEARNEY STREET, SAN FRANCISCO.

Established in 1854,

For the Permanent Cure of all Special and Chronic Diseases, as also all Female Complaints and Diseases of the Nervous System.

THE IMMENSE DESTRUCTION OF human life annually from secret and chronic diseases, caused this old and reliable institution to be established, first in Philadelphia, Penn., in 1850, and afterwards in San Francisco, Cal., in 1854, as a private dispensary, in order to afford the afflicted the best medical and surgical treatment, for the above and all other affections and complaints. Consultation at the Institute, or by letter, FREE.

To the Afflicted:

Dr. L. J. Czapkay would most respectfully inform the public of the Pacific coast that, at the earnest solicitation of his numerous friends, and hundreds of those unfortunately afflicted with disease, he has reopened his MEDICAL AND SURGICAL INSTITUTE and resumed the practice of his profession. The Doctor would remind all those who are in need of medical aid, that since relinquishing his very extensive and successful practice in San Francisco, he has visited the principal cities in Europe, inspecting diligently the experience of the most learned in the profession, the benefit from which he offers to all in need of his services. Rheumatic affections, chronic catarrh, diseases of the stomach and kidneys, liver complaints, etc., successfully treated. Those who are suffering from the errors and indiscretions of youth, nervous weakness, physical and mental debility, are assured of a permanent cure. Charges moderate. All communication strictly confidential. Medicines sent by express. Address,

L. J. CZAPKAY, M. D.
